

TROPICAL TIDE

TREND SPOT

*by HACO*

# SELF EXPRESSION

Summer is one of the liveliest seasons of the year, its vibrant colors transmit energy and its intensity is reflected in prints, materials and effects that refer to warm weather, adapted for free movement and cherishing comfort.

This season's bathing suits feature bohemian characteristics, represented by macrame and crochets that bring a more traditional touch. In contrast, tropical remains on the up, with super colored prints, foliage, floral and tie dye applied on light and fluttering fabrics.

Our products cater both strands, uniting the handmade look with a burst of tropical colors. Adapted to its application and functionality, Haco products undergo several quality tests, ensuring high durability and no wear, so you can create without limitation!
